NOTES:

Please request any necessary inventor/applicant signatures directly.

Full responsibility for the payment of annual fees as well as the further processing of intellectual property rights applications which are in prosecution lies with you.

Please note for national applications:

If the national process makes provision for checking of the application, we instruct you to make an application for checking immediately on filing.

Please note for EP applications:

We will perform the validation ourselves.

In order to comply with notification according to rule 51(4) EPC, please arrange for complete translations of the documents required for the grant, including the patent claims, into the further languages of the proceedings to be prepared.

On receipt of notification according to article 97(2) EPC we request IMMEDIATE transmission of this notification together with the abovementioned translations of the documents.

Please note for PCT applications:

Please do not yet pay the designation fees on filing. We shall inform you within the priority deadline for which countries these fees are to be paid.
